

John Doe

Backend Developer

john.doe@email.com | +1 (555) 123-4567 | San Francisco, CA | [linkedin.com/in/johndoe](#) | [github.com/johndoe](#)

SUMMARY

Backend Developer with 5+ years of experience designing, building, and maintaining scalable server-side applications and RESTful APIs. Skilled in Python, Node.js, and cloud infrastructure, with a strong focus on database performance, system reliability, and clean code practices. Proven track record of delivering high-availability services in agile teams.

SKILLS

Languages:	Python, Java, JavaScript (Node.js), Go, SQL
Frameworks:	Django, Flask, FastAPI, Express.js, Spring Boot
Databases:	PostgreSQL, MySQL, MongoDB, Redis
Cloud & DevOps:	AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, CI/CD (GitHub Actions, Jenkins)
Other:	REST & GraphQL APIs, Microservices, Message Queues (Kafka, RabbitMQ), Unit Testing

EXPERIENCE

Senior Backend Developer — Acme Technologies

San Francisco, CA | Jan 2022 – Present

- Designed and built RESTful microservices in Python (FastAPI) handling 2M+ daily requests, improving average response time by 35%.
- Led migration from a monolithic architecture to microservices deployed on Kubernetes, reducing deployment time by 60%.
- Optimized PostgreSQL queries and indexing strategy, cutting average query latency from 400ms to 90ms.
- Mentored 3 junior developers and introduced code review standards that reduced production bugs by 25%.

Backend Developer — BrightWave Software

Austin, TX | Jun 2019 – Dec 2021

- Built and maintained Node.js/Express APIs powering a SaaS analytics platform used by 10,000+ users.
- Implemented Redis caching layer, reducing database load by 40% during peak traffic.
- Integrated third-party payment and messaging services (Stripe, Twilio) into core product workflows.
- Wrote automated unit and integration tests, increasing code coverage from 55% to 88%.

Junior Software Engineer — DataPeak Inc.

Remote | Jul 2018 – May 2019

- Developed internal tools using Django and MySQL to automate data-reporting workflows.
- Collaborated with the QA team to identify and resolve backend bugs prior to release cycles.

EDUCATION

B.S. in Computer Science — University of Texas at Austin
Graduated May 2018

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Certified Kubernetes Application Developer (CKAD)
